

# Bespoke Training for Education Settings

Tailored and practice-led training in SEND and professional assessment.

## What are Real Training's bespoke services?

As a company founded by – and still owned by – education professionals, we want to ensure that we can deliver the most appropriate training for everyone's requirements and circumstances because we understand the realities of the education system. Though Real Training normally delivers a blended mix of online and face-to-face training, we also appreciate that in some circumstances there is a need for a more tailored service. All our courses can be tailored to your individual needs and delivered in a location to suit you. In our experience, the most suitable courses for bespoke delivery are those based on our professional assessment and MEd SEND programmes, please see our website for details of all our courses and qualifications.

**What do our delegates think?** '*The small number of students on the course allows for plenty of time for discussion and individual input from the course leader.*' AAC delegate from Taverham, UK.

## How, where and when are our bespoke services delivered?

Over the last few years we've delivered training in Singapore, Gibraltar, Antigua, Barbados and Northern Ireland, as well as different locations in England, so geography isn't a challenge for Real Training.

Typically, our bespoke face-to-face sessions are delivered within the school setting of the client, which avoids creating unnecessary costs – and doesn't take your staff away from the workplace.

To ensure that we deliver the best value possible to your team, and that we tailor an education programme specifically to your needs, we need to consult with your team ahead of delivering a course.

**What do our delegates think?** '*Presenters allowed a relaxed and easy atmosphere amid loads of information. The course was interactive, we learned while doing and it was flexible.*' CCET delegate from Caribbean Dyslexia Centre, Antigua

## What are the key benefits of bespoke training?

Bespoke training is ideal for Multi Academy Trusts or other settings where there is the opportunity to train a number of people in one location at the same time. Our bespoke courses offer a range of benefits, including:

- Both the content and format of the course are tailored to suit your needs and aspirations.
- It is the most cost-effective solution if you wish to train a number of people at the same time.
- It is a fantastic opportunity for colleagues located in different schools, across different areas, to meet together to share ideas, experiences and support each other on their learning.
- Delegates will have face-to-face interaction with their tutor as well as tutor support via telephone, email and via the online portal.
- As part of ongoing support, regular follow-up meetings will be arranged onsite or via a conference call.
- Delegates will receive exclusive offers from our sister company, Dyslexia Action.

**What do our delegates think?** ‘The tutor has been very supportive, offering positive comments to keep me going and constructive feedback when it was needed. She helped me instantly with some technical difficulties I was having and overall has been great.’ **SLCN delegate, Birmingham Support Services, UK**

## What are the next steps?

Each client's needs are different, so the first step is a consultation with our bespoke training adviser Natalie Rowe. You can call Natalie on **+44 (0) 1273 35 81 92** or email at **natalie.rowe@realgroup.co.uk**, giving some details on what you are looking for, how many participants you want to take part and where you are based. From there, Natalie can get back to you with a personalised training plan proposal.

**What do our delegate think?** ‘The support was always prompt and helpful.’ **CCET delegate from the United World College of Southeast Asia, Singapore**
